

# CHICAGO MOBILITY COLLABORATIVE

## ENHANCING CONNECTIVITY

Quarter 1 Session - March 13, 2025

# AGENDA

- Welcoming
- Panel Discussion
- Community Tables Overview
- Community Tables Breakouts
- Regroup
- Announcements
- Meeting close

# CMC GOALS

**The goal of the Chicago Mobility Collaborative is to establish a forum for meaningful participation, where collaboration is encouraged, learning is facilitated, partnerships are fostered, and where Chicagoans have a voice in the decision-making that impacts them.**

## COMMUNITY AGREEMENTS OF ENGAGEMENT

- Listen actively to understand others' views and perspectives.
- One person speaks at the time.
- Seek clarity, avoid making assumptions.
- Be accountable for your words and their impact.
- Your experience is valuable and unique, and it is worth sharing.
- Provide constructive criticism of ideas and projects, not of individuals.

# PANEL DISCUSSION

## INTERSECTIONAL INFRASTRUCTURE

# MEET THE PANELISTS

### About this Report

The Chicago Department of Transportation (CDOT) conducts a timely analysis of fatal traffic crash reports furnished by the Chicago Police Department (CPD) to understand the circumstances associated with such crashes. Based on these analyses, CDOT has identified trends, patterns, and correlations associated with each fatal traffic crash. These factors are then grouped into fatal crash typologies as listed to the right. Classifying crashes based on these typologies is among the preliminary outcomes of the analysis process and supports CDOT's efforts to develop relevant and data-informed actions to increase traffic safety. This report provides summary information related to fatal traffic crashes reviewed and analyzed by CDOT that occurred in the month specified.

### Typologies

- SP** Speeding
- DT** Disregard Traffic Signal/Sign
- DS** Distracted
- HR** Hit & Run
- SU** Single-Unit Crash
- LV** Striking Driver in Large Vehicle

Updated: Feb 19, 2025
