

ARBOVIRAL SURVEILLANCE REPORT

September 9 , 2024

SURVEILLANCE

This report provides data on Week 36 of surveillance for West Nile virus (WNV) in mosquitoes and includes data on other surveillance indicators. Gravid traps are placed throughout the City of Chicago and monitored twice a week for the duration of the mosquito-breeding season. For this reporting period, there were four (4) WNV positive mosquito pools.

Mosquitoes Data from 79 Traps

Week 36 (9/2/24 - 9/9/24)

Total Collections (Number of Traps X Frequency of Collection)	151
Number of Female Culex Trapped and Tested	806
Number of Pools Tested	63
Number of Pools Positive	4
Number of Community Areas with Positive Mosquito Pools	4

Cumulative Totals

Total Collections (Number of Traps X Frequency of Collection)	2093
Number of Female Culex Trapped and Tested	17535
Number of Pools Tested	1012
Number of Pools Positive	194
