

PUBLIC MEETING NOTICE

Sims Metal Management (“Sims”)

hosted by Chicago Department of Public Health

ABOUT THE DISCUSSION TOPIC

Sims has submitted a complete application to renew its large recycling facility permit for its location at 2500 S. Paulina Street. Based on feedback received during the public meeting on May 15 and significant public interest, as well as the goal of providing residents a chance to review additional materials submitted by Sims, CDPH is extending the public comment period for the permit renewal for an additional 30 days (through June 21) and is hosting an additional public meeting.

This meeting will help residents understand the difference between permit types and the data Sims provided, while the City can better understand and address community concerns.
