**PROCUREMENT HISTORY:**

In 1995, CPD began working with Oracle USA, INC., to design a comprehensive Criminal History Records Information System (CHRIS). The goal of the project was to create a single relational data center which would serve all of CPD's electronic data entry and storage needs. With the assistance of Oracle, CPD created CLEAR. The overall objective of the CLEAR system was to create a single repository for the storage and query of criminal history record information and images for the City of Chicago and surrounding communities. CLEAR was built upon the foundation of CHRIS. Oracle has been the single vendor supporting CPD's CLEAR system since its deployment in April 2000. Oracle's technical documentation and knowledge of CLEAR are vital to the successful implementation of the COPS Technology Initiative.

Since 1995, the Oracle Corporation has been the single consulting resource to work with CPD in the development and implementation of our computerized systems, and all subsequent modules. The CPD wishes to contract with Oracle to achieve successful implementation of the COPS Technology initiative.

Oracle has been the Chicago Police Department's development partner in the design, development, and maintenance of the CLEAR system since its inception. Oracle has played an integral role in developing the integrated enterprise data model as well as the core functionality of the CLEAR system which will be used as the basis for the COPS Technology grant Regional CLEAR model. The Oracle team has extensive experience with all facets of the CLEAR system and has gained significant knowledge of the business and technical complexities of the system. Oracle is the exclusive vendor of the database system that will be expanded to become the multiregional hub as defined in the COPS Technology initiative. All of the Regional CLEAR components included in the initiative require an extensive knowledge of the existing CLEAR applications, the integrated enterprise data model and the extracts and load processes that Oracle consultants currently possess. The CLEAR system is built solely on the Oracle Technology Platform.

**SCHEDULE REQUIREMENTS**

**EXCLUSIVE OR UNIQUE CAPABILITY**

Oracle's unique qualifications regarding the CLEAR system are:

Oracle is a proven leader in the development of advanced technological architecture and networked database design, customized software development, consulting services, product maintenance and technical support. During the 12 year contract with CPD on the CLEAR project, Oracle has allowed CPD to maximize the features of the Oracle database product, and therefore CPD's resource investment. The participation of the Oracle consultants during the Department's transition to CLEAR has been extensive and crucial throughout the project's development. The level of integration in CPD's central information system is substantially ahead of any other major law enforcement agency.

The CLEAR project has been researched by several prominent law enforcement agencies across the country as the information systems integration model. As each new component for CLEAR is developed and/or enhanced, the need for a comprehensive understanding of the full CLEAR structure and functionality becomes increasingly critical. A lack of knowledge of this system poses a substantial risk to the development process. More importantly, a lack of knowledge of this system could result in a final product that degrades the effectiveness, efficiency, and reliability of the overall CLEAR system.

Oracle is the only vendor with thorough understanding of the development tools, specific knowledge of the CLEAR database, and training and experience required to implement the COPS technology initiative. Therefore, we are contracting with Oracle as the sole economically feasible source vendor to ensure timely completion of the initiatives.

The Chicago Police Department under the COPS Tech Grant was required to request a sole source authorization from the Department of Justice Cops Office as well. The Chicago Police Department submitted that request on March 13, 2008. Upon completion of a full review by the Cops Office, the CPD received approval to sole source to Oracle on May 23, 2008.

**Re: COPS 2007 Technology Program Grant #: 2007CKWX0034  
Sole Source Justification Confirmation Letter**

Dear Superintendent Weis:

The Office of Community Oriented Policing Services ("COPS Office") has received your Sole Source Justification documentation and. The Grants Administration Division has reviewed the material as well as the additional supporting information and advises that your justification is acceptable and in compliance with the COPS Office's sole source procurement requirements.

Based on your Agencies representation that the requested services can only be provided by a single source, the COPS Office has approved your agencies request to proceed with this aspect of your project for the expansion of the CLEAR system (Citizens and Law Enforcement Analysis and Reporting system) to the "Regional CLEAR" (R-CLEAR) system through Oracle Inc. Please do not hesitate to contact the COPS Office at 1-800-421-6770 should you have any questions.

Sincerely,
