Subject: Notification of Gift Received

Hi Steve,

During a virtual Lead Homicide Investigation training, the presenter from Public Agency Training Council mentioned he would send COPA training attendees coins to commemorate the completion of the class. He did not specify what kind of coins or if this was anything of value.

After completion of training, I received 23 nickles encased in coin covers. There was not any communication included in the envelope.

The coins will be sent back to the presenter with a note explaining why we can accept the coins.

Charlotte Seiler
