Subject: Re: PACCARB meeting, May 21-22, 2024

Hi Steve!

Back from Washington, DC---again it was a fascinating, though sobering meeting, especially talking about antimicrobial resistance in war-torn countries like Ukraine and Gaza. I avoided honoraria and there was no swag.

As you know, I attended the Presidential Advisory Council on Combatting Antimicrobial Resistant Bacteria (PACCARB) <https://www.hhs.gov/ash/advisory-committees/paccarb/membership/index.html>

#### [Membership](#)

This describes how to nominate a member of the Presidential Advisory Council on Combating Antibiotic-Resistant Bacteria.

[www.hhs.gov](http://www.hhs.gov)

from 5/21-5/22, sponsored by HHS. I paid meal expenses.

Please let me know if more information is needed. Hope you are enjoying the long weekend.

All my best,

Stephanie
