Subject: Re: Ethics Notification for Travel

Good Afternoon,

I attended the attend the Urban Heat Resiliency Design Workshop hosted by Community Data Health Initiative Thursday May⁹th in Cambridge, MA. to ensure a member from the Emergency Management Team was present to receive information regarding the mitigation of climate change.

Lodging, roundtrip airfare, ground transportation, and meals for the Urban Heat Resiliency Design Workshop were funded through the Robert Wood Johnson Foundation. Other conveners include Data-Smart City Solutions, the African American Mayors Association, and the Environmental Defense Fund.

I did not receive any honoraria, or swag.

Thank you
