Steve and Chasse,

Yesterday our office received a Mrs. Fields gift basket from GIM Electric via delivery service. I could not find the exact gift basket, with 25 packs of miniature cookies. I was able to find a 30-pack (\$74.99) and a 20-pack (\$54.99). It's purely conjecture on my part, but my best guess is that the basket's value is \$64.99. As this was a perishable item, it could not be returned.

We accepted on behalf of the City and placed it in the lobby for visitors to enjoy.

Best regards,

Carlos Díaz
