City of Chicago Domestic Violence Help Line

Gwyn Roland Director

City of Chicago, Domestic Violence Help Line Chicago Metropolitan Battered Women's Network

The City Of Chicago Domestic Violence Help Line is a collaboration of the City of Chicago, Mayor's Office On Domestic Violence and the Chicago Metropolitan Battered Women's Network.

Report prepared by:

Ebony M. Dill, Ph.D. Coordinator of Research and Evaluation, City of Chicago, Mayor's Office on Domestic Violence

with contributions and editing by Leslie Landis, Gwyn Roland, and Gail Woods

This project was supported by Grant # 2007-VA-GX-0020, awarded by the Office for Victims of Crime, Office of Justice Programs, U.S. Department of Justice, through the Illinois Criminal Justice Information Authority. Points of view or opinions contained within this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice, or the Illinois Criminal Justice Information Authority.

INTRODUCTION

CITY OF CHICAGO DOMESTIC VIOLENCE HELP LINE

The City of Chicago, Domestic Violence Help Line is a toll-free, telephone service that functions as a clearinghouse to domestic violence services in the metropolitan Chicago area. The Help Line operates 24-hours a day, 7 days a week. The service is confidential and multi-lingual. Established in 1998, the City of Chicago, Mayor's Office on Domestic Violence (Leslie Landis, Director) contracts with the Chicago Metropolitan Battered Women's Network (Gwyn Roland, Director) to staff the Help Line. Trained domestic violence advocates called VIRAs (Victim Information and Referral Advocates) provide callers to the Help Line with safety planning support, general domestic violence information, and referrals to appropriate domestic violence services. Enhanced support for callers can also include a three-way phone linkage between a caller and a domestic violence provider agency. Three-way phone linkages can support immediate access to services, aid with language barriers, and provide moral support for callers in need. Domestic violence service referrals include shelter, counseling, legal advocacy/representation, family, and abuser services. Diverse language needs are met by English and bi-lingual, bi-cultural Spanish speaking VIRAs. VIRAs can also access translators via a Language Line to respond to over 140 other language needs, such as Polish, Chinese, and Urdu. A TTY is available for speech and hearing impaired callers. The Help Line operates on two centralized databases. The first database allows VIRAs to record case specific information about a victim (not victim identifying information) that includes demographic information and service need information. The caller is provided with a unique call ID number that can be used as a referent during subsequent calls to the Help Line. The second is a searchable database of domestic violence service provider programs in the metropolitan Chicago area. Callers are matched to services based on the ZIP code provided by the caller and their identified service need.

HELP LINE SERVICE ENHANCEMENTS

In efforts to better serve callers to the City of Chicago, Domestic Violence Help Line several enhancements have been made to the Help Line information databases. Currently, VIRAs are able to record information and service needs for multiple victims in the same household, record county designations for each caller, and connect victim callers with service providers across the city and *statewide*. Subsequent reports will incorporate and highlight notable changes.

CHICAGO – ZIP CODE PROFILES

Chicago ZIP Code Area Profiles 2007 is the sixth annual profile report of the characteristics and service needs of victim callers to the City of Chicago's Domestic Violence Help Line. Data for this report were obtained from the City of Chicago, Domestic Violence Help Line databases for January 1, 2007 through December 31, 2007. During this period, the Help Line answered approximately 20,000 calls from persons in and around the Chicago area. Calls are classified as domestic violence related, non-domestic violence related, or administrative calls (e.g., hang-ups, wrong numbers). Domestic violence related calls were received from 6,040 victim callers. ZIP codes were used to describe victim home location and to connect them with appropriate service locations. This report provides information for 4,297 domestic violence victim callers who *also* provided a Chicago area ZIP code.

This report presents summaries of victim's characteristics and service needs at 3 levels: citywide, by sector (North, South, Central), and by individual Chicago ZIP codes within sector. Counts, percentages, and/or indicators of central tendency [mean or median] are used to describe victim caller's age, gender, race, parenthood, number of children, call language, service need, referral source, relationship to abuser, and service needs such as, shelter, counseling, legal services. Population data, obtained from the 2000 Census, and the number of domestic violence services were also included in selected sections.

Information in this report reflects use of the City of Chicago, Domestic Violence Help Line by victims of domestic violence in Chicago and is not an indicator of prevalence or incidents of domestic violence in Chicago. The number of victims who use the domestic violence Help Line will be significantly lower than the actual number of domestic violence victims in the city. This happens for a number of reasons that include many victims do not report abuse to police or friends and many victims may access supports via other pathways. This report provides demographic information about victim callers who access the City of Chicago, Domestic Violence Help Line as a resource and their identified service needs and can be used to support decision-making regarding services to victims of domestic. It is easily reproducible – in whole or in part – and should be shared.

A variety of reports are produced from the City of Chicago, Domestic Violence Help Line data. We invite you to peruse these reports on our website: www.cityofchicago.org/domesticviolence.

GLOSSARY/DEFINITIONS

Abuser Victim callers to the Help Line provide demographic information (age, sex, race) about their abusive partner.

- Age The VIRA records the actual age of the victim and their abuser from which the median ages are calculated. The median represents the middle point in the range of ages. This method is chosen to be consistent with the Census Bureau reporting of age. For presentation purposes, age groups were created for the Citywide and the Sector profiles.
- **Census 2000 Demographics** To provide context for the victim callers in the area, demographic information for the City of Chicago and each ZIP code area was obtained from the U.S. Census Bureau, Census 2000. Data was extracted using American Fact Finder on the Census Bureau website: **www.census.gov.**
- **Children** Victims are asked to provide the age and sex of all children living with them. Calculated for this report are the total number of victims that reported having children "Have Kids" and the total number of victims who did not report that children lived with them "No Kids." Information about children may not have been obtained or recorded therefore the number of victims without children may be slightly higher than actual. Of the victims who have children, "Total Kids" represents the total number of children of all victims in that area. The Range shows the fewest and the greatest number of children of victims in the area. The Mean N represents the average number of children per victim in this area, excluding victims without children. Finally, Kids 0-5 yrs represents the total number of children who were between the ages of 0 and 5 when the victim called the Help Line.
- **DV Providers** Many domestic violence service providers or agencies offer a variety of services to domestic violence victims. For presentation the services are grouped into broad categories based on their program's primary service provision focus. The number of programs within each geographic area is presented for the city and the three sectors. Any program that was in operation for at least one month during 2006 is included. For confidentiality, shelters are only presented citywide/sector and not by ZIP code.
- **Language** Most of the calls received by the Help Line are conducted in English, Spanish or Polish. When callers speak a language other than English or Spanish, the Language Line is utilized.
- **Loop** Included in the Loop area are all ZIP codes that are assigned by the Post Office to the area of the Loop. Also included are Post Office Boxes and ZIP codes assigned to particular buildings/businesses.
- **N** Represents the total. For each ZIP code area the total number of victim callers received within the ZIP code area is reported.

- **Race** VIRAs ask victims to select the racial category that they most identify with: Black/African American, White, Latino/Hispanic, Middle Eastern, Asian, Multi-racial, Native American or Other. Percentages for each category are reported in the Citywide and Sector profiles but because of the small numbers are grouped Black, White, Latino and Other within specific ZIP code areas.
- **Referral By** Callers are asked who referred them to the Help Line or how they learned about the Help Line. Up to two sources of referral are recorded for each victim and the first source is reported in the profiles. For presentation, the sources of referral are grouped into seven broad categories.
- **Relationship** Callers are asked to identify the relationship of the abuser to the victim. Callers are asked to further identify the family relationship (parent, child, uncle etc.) for relationships described as a non-intimate partner family or blood relation.
- **Sectors** Three geographical divisions of the city based on ZIP code area were created for reporting. The North sector approximately represents the North side of the city. The central sector approximately represents the middle portion of the city. The South sector approximately represents the South side of the city. ZIP codes in this sector are 60617, 60619, 60620, 60621, 60628, 60629, 60633, 60636, 60637, 60638, 60643, 60649, 60652 and 60655.
- **Service Need** VIRAs work with victims to identify the type of service needed. For presentation purposes, these services are grouped into four broad categories. Up to two services are recorded for each victim, the Primary service need is presented in this report.
- **Victim** Any person who called the Domestic Violence Help Line as the result of experiencing domestic violence is considered a domestic violence victim caller. Domestic violence includes all forms of abuse including physical, emotional, mental, psychological and sexual violence. The focus of the Help Line is primarily toward intimate partner violence (current and former) however; calls are also accepted from non-intimate partner domestic violence victims (sibling, roommate etc.).
- **ZIP Code** Callers are asked for the ZIP code of the neighborhood for services. Calls are placed into ZIP code area based on the US Postal Service listing and are geographically mapped using ARC View software. Profiles are created for each ZIP code area that received any victim calls. Below are the Chicago Area ZIP codes by sector.
