Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-01 Overtime Spend by Department

The following information is provided in response to questions posed at our department's hearing on November 6, 2024, to discuss the proposed 2025 budget.

Alderman Lee asked for a departmental breakdown of overtime expenditures for the Fiscal Year 2024 across all of the City's budgeted funds.

The following is an expenditure summary for appropriation "0020 – Overtime" by department as extracted from the payroll costing module of the City of Chicago's Financial Management and Purchasing System (FMPS Payroll Costing). The summary includes payroll periods 1 through 16, which represents all the information available at the time of this request for information.

For future reference, this dataset is published four times throughout the year to the City's Open Data Portal

- [Employee Payroll Data \(FMPS Payroll Costing\) \(data.cityofchicago.org\)](https://data.cityofchicago.org).

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-02 Department Level Staffing Analysis

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderwoman Dowell asked the Office of Budget & Management if there has been any analysis of the City workforce and the current structures.

OBM and DHR both have responsibilities in the process of reviewing department requests for positions as a normal course of business. When departments initiate desk audits for current positions or request to create new titles, both departments review organization charts, look at other comparable organization structures, discuss the chain of command and scopes of work. We work collaboratively with our departments to find solutions, but with a focus on looking for efficiency of process and not creating unnecessary layers of supervision.

A citywide analysis of the workforce and structure has not been conducted in recent history. Rather, during budget discussions with departments, OBM reviews current organization structures and discuss opportunities for improvement in processes and implementation of departmental efficiencies.

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-03 Furlough Study

The following information is provided in response to questions posed at our department's hearing on November 6, 2024, to discuss the proposed 2024 budget.

Alderwoman Dowell asked for the Office of Budget & Management's projections on the savings associated with the implementation of furlough days in 2025 for segments of the City's workforce.

It is important to note that the IL Labor Relations Board and arbitrators have made determinations that impactful mandates such as furlough days for union represented personnel require negotiation and agreement with each bargaining unit representative before implementation. Thus, the only guaranteed savings of any proposed furlough days without negotiation would be generated solely by the City's non-represented workforce, which represents only about 11% of the City workforce across all funds and 9.8% of the Corporate Fund positions. The tables below include breakdowns of the expected savings associated with the implementation of furlough days amongst the City's non-represented workforce, non-sworn title workforce, and total workforce for the City's Corporate Fund.

The associated costs per furlough day for the City's Corporate Fund personnel from these three workforce groups are listed below:

- City's Non-Represented Workforce - \$924,797 per day, impacting 2,302 personnel (Table 2)
- City's Non-Sworn Workforce (including represented personnel) - \$2,254,228 per day, impacting 6,111 personnel (Table 3)

- City's Full Workforce (including represented personnel) - \$11,352,881 per day, impacting 22,446 personnel (Table 4)

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-04 ARPA Contract Clauses

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderwoman Dowell asked for ARPA Funded contracts in 2025 and contract break clauses/costs pertaining to early termination.

There are 281 ARPA contracts that have obligation balances totaling \$120M as of September 30, 2024. The list of obligation balances by project name and vendor are in the table below. The majority of those contracts are for community partners and delegate agencies making up 219 contracts totaling \$115M as of 9/30/24. All delegate agency contracts for ARPA have below boilerplate terms:

Funding for this Agreement is subject to the availability of funds and their appropriation by the City Council of the City, State and/or Federal authorities, if applicable. No payments will be made or due to you under this Agreement beyond those amounts appropriated and budgeted by the City to fund payments under this Agreement. The City's obligations hereunder shall cease immediately, without penalty or further payment being required, if the City Council of the City, the Illinois General Assembly and/or federal funding source(s) fails to make an appropriation sufficient to fund this Agreement. Notwithstanding the foregoing, and in recognition of the fact that the funds provided under this Agreement are not the sole source of funds for the Program, nothing in this Agreement shall prevent you from continuing to perform the Services after the termination of this Agreement.

If no funds or insufficient funds are appropriated and budgeted in any fiscal period for payments to be made under this Agreement, the City will notify you in writing within 90 days after the City approves its annual budget, of such occurrence. The City, at its sole discretion, shall determine whether amounts appropriated are sufficient to continue its obligations under this Agreement. This Agreement will terminate on the earlier of the last day of the fiscal period for which sufficient appropriation was made or whenever the funds appropriated for payment under this Agreement are exhausted. Any grant is void by operation of law if the City fails to obtain the requisite appropriation to pay the grant in any year in which this Agreement is in effect.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-05 Personnel Count by Salary

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2024 budget.

Aldermen Rodriguez asked for the Office of Budget & Management's for a list of personnel making less than \$70,000 annually in the Mayor's Recommended Budget for FY25.

At present, 3,697 personnel across City departments will make an annual salary below \$70,000 for FY25. From that list, 3,006 of the personnel are on salary schedules which will allow for personnel to increase their salary through continued service and time in title.

From the remaining 691 personnel, 597 of these employees are subject to negotiated prevailing wage rates set at the County level by the State of Illinois. The majority of the remaining 94 personnel include employees at static rates that are not currently on schedules. These are predominantly aldermanic ward staff put at a set rate by their respective wards and a handful of Mayor's Office personnel.

A list of position titles that make up the 3,697 personnel has been provided to the Alderman.

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-06 American Rescue Plan Act (ARPA) Appropriations

The following information is provided in response to questions posed at our department’s hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderwomen Nugent and Hadden asked what does the City have obligated in ARPA and what programs we could theoretically cover through ARPA funds in the FY25 budget?

The total unobligated balance in ARPA is over \$154M based on data from the City’s online dashboard as of 9/30/24. Approximately \$9M of the unobligated balance is for 2024 payroll that has not been processed and a handful of 2024 contractual obligations that have not been encumbered in the City’s financial system. The terms “obligated” and “unobligated” come from the US Department of Treasury and does not reflect the City’s allocations and commitments supporting staff payroll, grant awards, and contracts that have not been encumbered in our financial system just due to timing of payroll encumbrance, grant award budget execution, and other processes.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-07 State Revenue

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderman Hadden asked for information about revenue ideas requiring state action.

Below is a list of high impact structural solutions that would require state action:

- **LGDF (local government distributive fund) share increase:** the LGDF provides a share of state income tax to municipalities. Until January 2011, 10% of total income tax collections was dedicated to LGDF for distribution to municipalities and counties as opposed to the 6.47% today.
- **Ending sales tax exemption on services:** Illinois currently does not tax services. Ending this exemption would allow the tax base (the number of things that are taxed) to grow, which would increase revenue even if we were to simultaneously reduce the sales tax rate itself (as the City has one of the highest sales taxes in the country).
- **Graduated income tax:** Changing the state income tax system to follow a graduated system (like the federal government) where higher income earners pay a higher percentage of their income in taxes would be a progressive approach to raise revenues for the state and Chicago

ID#: 05-08 Corporate Vacancies Open for Six Months

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderman Vasquez asked the Office of Budget & Management for a percentage of corporate funded vacancies that have been open for more than six months.

Our current software platforms do not provide this metric for positions. Each year, the City reconciles our Human Resource Information Service system, Chicago Integrated Personnel and Payroll System (CHIPPS), with positions that have been approved in the budget ordinance. The required methodology reloads all position data for the new budget year and positions become unique to the individual year. In order to review your question, we created a methodology of looking at snapshot data we have from various points of time focusing on the use of start-up vacancies and excluding attrition vacancies that occur throughout the year.

We compared vacancies open in January as part of our yearly start up and we are able to provide the following assessment: 1696 vacancies were open on the corporate fund in January 2024. Reviewing matching vacancy details, from both July and November, 470 positions remain open.

Based on this data, approximately 28% of current corporate vacancies have been open for longer than six months.

ID#: 05-09 Cannabis Fund Projects

The following information is provided in response to questions posed at our department's hearing on November 6, 2024, to discuss the proposed 2025 budget.

Alderman Vasquez asked for summary of projects that are included in the \$3.8M listed under the Mayor's Office Special Programs Cost Section in the Cannabis Fund.

The Cannabis Fund will fund the following:

- **\$3,800,000- 9102- Special Program Costs**
 - \$1,500,000- **Health Care, including Mental Health Initiatives**- Awards to CBOs to provide health care including mental health supports with a focus on returning residents. RFP is in the development stage.
 - \$1,500,000- **Community Environment Initiatives**- Award(s) to make physical improvements to vacant lots and other areas in need of infrastructure investments in communities that have experienced high levels of disinvestment with a focus on workforce opportunities for returning residents. RFP is in the development stage.
 - \$800,000- **Community Conveners**- In partnership with CDPH, awards to four CBOs to each support a community area and work with the City to advance hyperlocal violence prevention and reduction strategies including employment to reduce the involvement of individuals in the illegal cannabis market. Three of four awardees have been selected and the last awardee selection is imminent.

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderman Vasquez asked if the City Council of Financial Analysis (COFA) has access to FMPS and budget data.

Since October 2023, COFA staff has had active Business Objects accounts and have been provided training materials through Chicago's eLearning platform (Training Module: SAP Business Objects Reporting and Training Guide – Introduction to SAP Business Objects).

COFA also has been granted access to a folder with copies of the City's standard budget and expenditure report (GL B002), which is available for COFA under the following Business Objects folder path:

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-11 Property Tax Reduction Alternative

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2024 budget.

Alderwoman Cruz asked for the Office of Budget & Management's projections on the number of positions that would be reduced if \$300 million in personnel reductions were made in lieu of increases to the City's property taxes.

For context, Chart 1 below illustrates the funding breakdown by department for the Corporate Fund personnel budgets included in the FY25 Mayor's Recommend Budget. It is important to highlight that the Chicago Police and Chicago Fire Departments combined account for over 78% of this Corporate funding.

Table 1 below contains a scenario based on an equal distribution of \$300 million across Corporate funded departments based on their financial personnel weight against the Corporate Fund. In this scenario, a total of 4,134 positions would be reduced based on calculations based on departments' average filled position salaries. A breakdown for those departments most affected based on positions eliminated is listed below. A full breakdown of the impact of these reductions can be found in Table 1.

- Chicago Police Department – 2,473 positions
- Chicago Fire Department – 643 positions

- Department of Streets & Sanitation – 151 positions
- Fleet & Facility Management – 212 positions
- All (31) Other Corporate Funded Departments – 654 positions

Additionally, OBM reviewed current vacancies along with personnel records to make an assessment of the impact to City departments if the \$300 million was applied to personnel reductions, but excluded the Chicago Police Department and Chicago Fire Department. In this scenario, 3,107 positions would be reduced across 33 Corporate funded departments. A breakdown of the impact of these reductions can be found in Table 2.

CITY OF CHICAGO

OFFICE OF BUDGET AND MANAGEMENT

MEMORANDUM

To: The Honorable Jason Ervin
Chairman, Committee on the Budget and Government Operations

From: Annette Guzman
Budget Director
Office of Budget and Management

CC: Kennedy Bartley
Chief External Affairs Officer, Mayor's Office

Date: November 12, 2024

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-12 Fleet Vehicles

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderman Beale asked for a list of how many fleet vehicles the City has and who is authorized to use them.

The City has 12,180 vehicles in its fleet. Employee vehicle use is authorized based on job duties, licensing requirements, and supervisor discretion. Attached, please find a list of all city-owned fleet vehicles and equipment.

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-13 Hiring of Chicago Police Department Leadership Positions

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderman Beale asked why the Police Department was not being allowed to hire positions within their leadership team.

The Office of Budget and Management has not received A-Form requests for the positions referenced by Alderman Beale from the Chicago Police Department. The highest ranking A-Form that has been submitted to OBM recently was for a vacant Deputy Chief position on Monday November 4, 2024 and that A-Form has been approved.

As always, please let me know if you have any further questions.

Re: Request for Information from Annual Appropriation Committee Hearing

ID#: 05-14 Non-Contractual Salary Increases

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Aldermen Lopez asked for the Office of Budget & Management to provide the non-contractual salary increases included in the Mayor's Recommended FY25 Budget by department.

The only workforce that does not have contractually obligated increases is the City's non-represented workforce. It is important to note that there are two types of increases that would impact the City's non-represented workforce, which are cost of living adjustments (COLAs) and scheduled step increases for personnel in titles that are on salary schedules. In recent years, the City has made efforts to apply COLAs to the non-represented workforce that match those of the union represented personnel they work with and, in many cases, manage.

Salary compression between non-represented and represented personnel led to increased attrition, inability to recruit and retain staff, or promote internally as represented personnel have defined wage growth that has surpassed their non-represented supervisors. OBM, DHR and our vendor CPS-HR began a comprehensive review and analysis of positions in our non-represented workforce and recommendations for appropriate pay scheduled were presented to City Council. In April 2023, City Council authorized resolutions R2023-637 establishing pay schedule "X," for senior management employees and in July 2023, R2023-0003064 authorized pay schedule "IT," for IT lead, supervisory and management staff. In June 2024, City Council approved resolution R2024-0009619 establishing pay schedule "PX," for public information service positions and "LX," for legal services supervisory and management staff.

The recommendations adopted in these resolutions ensured these positions had a path to meet the average market rate when compared to other public sector employers. The schedules establish a defined pay structure which encourage recruitment, promotion and retention in

critical positions as defined by the departments and have helped create a path to resolve compression issues.

As part of cost reduction efforts made in the Mayor’s Recommended FY25 Budget, the initially proposed 3% COLA implemented 1/1/2025 for non-represented personnel is scheduled to be delayed to 7/1/2025. This delay is projected to save over \$4.1 million on the Corporate Fund and over \$7.8 million across all funds in 2025. Maintaining COLA parity with union agreements is a critical part of ensuring that compression issues are not further aggravated. Included within the FY25 budget is also funding allocated for elected officials at the rate defined by ordinance. There are some eligible officials that elected to forego this annual increase.

Below are the totals for currently budgeted COLAs for City non-represented personnel for 2025 along with scheduled step increase costs and a combination of the two. A full breakdown of this personnel universe as well as the requested breakdown by department can be found in the below tables:

- Cost of Living Adjustments: Corporate Fund \$4.125 million, All Funds \$7.840 million
- Scheduled Step Increments: Corporate Fund \$3.208 million, All Funds \$5.724 million
- Combined Cost: Corporate Fund \$7.334 million, All Funds \$13.565 million

ID#: 05-19 Tier II and Tier III Pension Obligations

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderman Lopez asked what preparations are being made for Tier II and Tier III pension obligations:

The Mayor's Recommended FY25 Budget accounts for all obligated payments for Tier II and Tier III assigned employees and retirees. Continuing advanced contributions will assist the Police, Fire, Laborer and Municipal Employee pension funds avoid having their unfunded liabilities grow. We continue to monitor any state legislation that may have an impact on any of the four pension funds that cover our employees and retirees.

Further, last year Mayor Johnson established a pension working group including myself and the following representatives from Mayor Johnson's administration, the city council, the general assembly, organized labor and pension funds:

- Kelly Burke, Illinois State Representative, 36th District
- Beniamino Capellupo, Senior Labor Advisor, City of Chicago
- John Catanzara Jr., President, Chicago Police Department Lodge 7
- Pat Cleary, President, Chicago Fire Fighters Union Local 2
- Pat Dowell, Alderman, 3rd Ward
- Jason Ervin, Alderman, 28th Ward
- Joe Healy, Secretary-Treasurer, Laborers' District Council of Chicago
- Jeff Howard, Executive Vice President, SEIU Local 73

- Jill Jaworski, Chief Financial Officer, City of Chicago
- Andrea Kluger, Deputy Chief of Staff, Government Affairs, Chicago Federation of Labor
- Jason Lee, Senior Advisor, City of Chicago
- Robert Martwick, Illinois State Senator, 10th District
- Martha Merrill, Director of Research & Employee Benefits, AFSCME
- Cameron Mock
- Mike Rodriguez, Alderman, 22nd Ward & Chairman of City Council Workforce Development
- Steve Zahn

ID#: 05-21 One System Initiative (OSI) Funding

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderman Dowell asked for information on how the One System Initiative (OSI) is funded and could that full budget be shifted to ARPA.

The City's investment into homeless sheltering through the OSI that will add 3,800 additional beds into Chicago's shelter network is budgeted at \$40 million. That investment is through \$25 million in Corporate funding and \$15 million in ARPA funding. Any shift to cover additional OSI costs with ARPA funding would be allowable per federal grant guidelines but would require current ARPA programming to be discontinued.

Additionally, an overreliance on ARPA to support this program could put the sustainability of the OSI at risk given the one-time nature of the ARPA funding. The State of Illinois has committed \$38 million for the remainder of their FY25 for the OSI and over \$60 million for their FY26. Any deviation from the approach that the State and City have collectively agreed upon could undermine our ability to create a unified and sustainable homelessness system in the city.

ID#: 05-23 Anticipated FY 2024 Surplus by Department

The following information is provided in response to questions posed at our department's hearing on November 6, 2024 to discuss the proposed 2025 budget.

Alderman Lopez asked for the anticipated FY 2024 surplus by department.

OBM published a document named the 2025 Budget Forecast at the beginning of August that included a 2024 end-of-year forecast showing expected expenditures as compared to budget. The 2025 Budget Forecast is available on OBM's website ([Chicago.gov/OBM](https://www.chicago.gov/OBM)) or at [2025-Chicago-Budget-Forecast.pdf](#). The 2024 surplus forecast is presented based on data through July 2024. The 2024 year-end estimates can be found in the Income Statement – Corporate Fund chart found on page 13.

The City publishes 2024 surplus actuals in the Annual Comprehensive Financial Report that will be released in 2025 by the Department of Finance.
