

Total Respondents: 47 Community Members

**Respondents by Community**

**Respondents by Age Group**

**What would you like to see at these street intersections?**

There are concerns about safety, infrastructure, pedestrian accessibility, and community amenities to improve street intersections. There is a desire for increased police presence and enhanced security measures to ensure safety at intersections. Many responses highlight the importance of pedestrian safety.

Map of Locations that need attention or improvements. (Answered by 15, Skipped by 37)

**How should the City prioritize the following elements?**

Respondents ranked which priorities are most important to them. (1 Highest Priority to 6 Lowest Priority)

1. **Community Safety**
2. **Community Programming for all**
3. **Economic Development and Opportunity**
4. **Health and Environmental Justice**
5. **Housing Affordability**
6. **Open Space and Beautification**

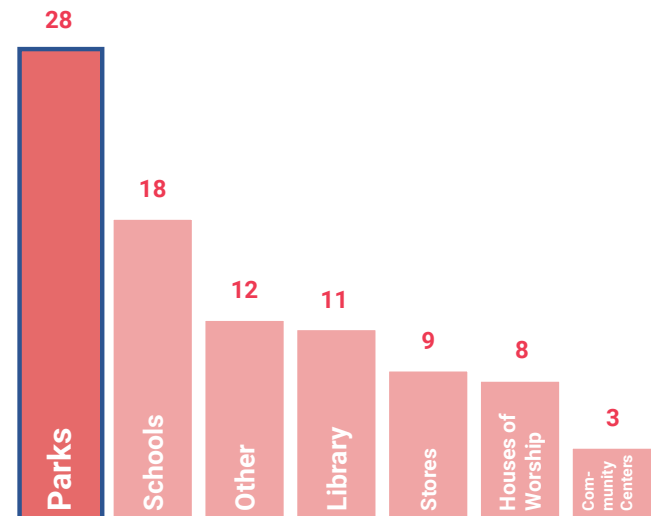

**Is there a specific issue or concern you would like the City to tackle?**

There is a strong desire for improvements in community safety, infrastructure, and environmental health. The dominant theme is a strong desire for enhanced safety measures, with multiple requests for increased police presence and concerns about crime and gang activity.

**Where do you and/or your children spend time?**

(Answered by 44, Skipped by 3)

Respondents selected all the places that apply.

**Additional Comments and Questions**

Respondents expressed a desire for a cleaner, more connected community with better infrastructure, enhanced services for youth and vulnerable populations, and increased opportunities for resident engagement in City decisions.
