Unifying the Homeless and New Arrivals Systems

City and State have agreed to **move toward a unified system approach to unhoused Chicagoans and new arrivals. Systems Integration planning will begin in early 2024, with support from consultants organized through the Illinois Office to Prevent and End Homelessness-funded Homelessness Education and Technical Assistance Center at the Supportive Housing Providers Association.**

Current timeline:

- Technical assistance with systems integration to define policy, operational and resource considerations: January – June/July 2024
- Workplans developed out of the TA process will inform the longer-term implementation timelines but anticipate modifications will begin in 2024 where feasible and work will go into 2025.

Unifying the Homeless and New Arrivals Systems

The initial focus of the facilitation process will be to identify decisions and work plans in a range of areas that impact both response systems. Key objectives for the first 6 months include:

- **Leadership Structure:** Establish a leadership and decision-making structure for the systems integration team.
- **Operational Structure:** Develop an operational structure for implementing strategies, drafting policies, and program solutions.
- **Cross Training:** Identify and deliver immediate areas for cross-training, policy clarification, and communication.
- **Language Access:** Create a language access plan for the crisis response system.
- **Process Flow Design:** Develop a process flow for services, including shelter diversion, placement, legal services, public benefits, prevention, and housing assessment.
- **Integration with Continuum of Care:** Establish clear linkages with the Chicago Continuum of Care Lines of Action and the Illinois Welcoming Centers Community Alliances structures.
- **Data System Development:** Determine data system needs and options for tracking/reporting, case management information, expansion, training, and reporting.
- **Work Plans:** Develop detailed work plans in multiple areas determined by the broader initiative.

- DFSS seeks applications for the operation of emergency shelters for new arrivals.
- This **RFP is an update to the initial RFP #9335 issued in August 2023**, and includes sites for which DFSS either made no award under #9335 or which have been newly added to the New Arrivals shelter system since the prior RFP release.
- Operate shelters at any of the **six specific** City-owned or City-leased facilities.
- Respondents may apply to operate more than one shelter facility.
- Applications are **due on Tuesday, May 14th, 2024 at 12:00pm, Noon CST**.
- A Pre-Proposal Webinar was held on **Friday, April 19th, 2024 at 1:00pm – 3:00pm**. A recording of the webinar will be available on the DFSS website shortly.

Office of Immigrant, Migrant, and Refugee Rights

- On Friday, April 19th, a significant stride was made as the City Council decisively **voted 30-18 to allocate an additional \$70 million** towards the shelter, food, and other essential service.

- The council also unanimously **approved \$48 million** in grant money from the state and federal government

- **Please provide some detail about the \$48M from state and federal government. What are the funds for, & when can they be used?**
 - The \$48M grant from the state consists of a \$9M pass through grant from FEMA and \$39M direct funding from the Illinois Department of Human Services. The FEMA grant will cover the costs of shelter leases for those buildings that the city leases for new arrival shelter. The grant from IDHS will cover staffing costs incurred by the city to support our shelters.
- **What does the City estimate will be needed to cover all remaining costs of this fiscal year, and next FY?**
 - The City estimates it will spend over \$380M over the course of 2024, which will be funded by a combination of city, state, county and federal funds.
